Business not Affected.

The recent depression in business has not affected the passenger traffic of the St. Louis, Kunsas City & Northern Short Line, as they continue to run six fast express trains two more than any other line between the Missouri and Mississippt Rivers. This road enjoys great immunity from accidents, by reason of immense expenditures in the last two years, of over two million dollars, besides earnings, in wonderful improvements, in relaying their line with new steel and iron rails, on broad new ties, in new rolling stock supplied with all modern applicances for comfort and safety, and as another safeguard, employ night and day watchmen to inspect the road before and after the passage of each train, to see that everything is in order. Consp cions among new improvements is the substitution for or dinary cars, of new reclining chair coaches, elegantly car peted and fitted with dressing rooms for ladies, gentlemen and families, without any extra charge. The St. Louis, Kansas City & Northern and the Kansas City, St. Joseph & Council Blatts Railroad form the only line running through Pullman Palace Sle pers between Omaha and S Louis. The shortest line between the West and the East is over the St. Louis, Kansas City & Northern Short Line, ither through St. Louis, the great metropolis of over 450,000 inhabitants, or through Chicago, ris the Chicago A Alten Short Line, over the Louisiana Bridge now open for passage of through trains. Ticket Agents of cor ods selling through tickets to the East, North or South, will furnish tickets by this excellent line. Last Friday evening, a man on foot appeared at the house of Mr. James Fulton, living about three miles north of Wathena. He stated that he was looking for work, and from 104 to 108, and I think it was as warm as any day asked Mr. F. if he could not give him a job. Mr. F. offered him five cents a shock to cut corn, which offer he acrepted, and was to begin the next morning.

The next morning he was shown into the field, and com

F. followed him, and overtook him at the house of Thomas Holland; he told him to go back to work, which he refused to do; then he told him be had better pay for his night's lodging. The fellow said that he had no money, whereupen F. as ed his hat, and started off with it : the fellow followed him till he was some distance from the house, when he deliber-ately drew a pistol and shot Fulton, the ball taking effect and he was carried home. Dr. Winfrey was sent for, who after examining his wound, pronounced it to be fatal. He is still alive, but the lower half of his body is perfectly paralyzed, and he is not expected to live long. The alarm was immediately given, and a number of armed citizen was immediately given, and a number of armed citizens started in pursuit of the murderer. They traced him to the river, somewhere above Amizonia, where it is supposed he crossed into Missouri. He is described as being a medium sized, poorly dressed man, about 27 or 28 years old. He gave his name as Stewart, and said he was from gerous class, and deserves to be brought to speedy justice. Mr. Hedges, of Maryland, of the firm of Snively &

Considerable dissatisfaction is expressed with the man agement of the D. C. Road, on the occasion of the picnic Saturday last. Some 50 persons did not go, from the fact that the road would not agree to send passenger coaches, although they were telegraphed for some days before. The reply from the officers of the road was, that "they would guarantee nothing, until the St. Joe people were provided for." Good thing for people on the line of the road,

Things are looking pretty dry now, in this part of the County. The farmers are confidently expecting rain. Our town has had the presence of about 40 or 50 milligrasshoppers for about two days; but at the present writing, it seems that they are dissatisfied with the diet of this place. They say 'tis too thick (quoting from Mr. M., who held an interview with a few prominent representatives.) Think they are making for the Severance reporter. They can't make the same complaint about their diet there, as one of the larger ones was discovered on Mr. Nigus' lightning rods, complacently surveying the route to the aforementioned place.

Mr. Schook has returned from the vicinity of Falls City. Nebraska, where he has been working at his trade. He reports things very dull, as there has been an absence of rain to any extent for about nine weeks. The corn, he says, will be an entire failure, and the other crops will average about two-thirds.

The farmers are generally engaged in cutting their corn, save the folder. It is very green, at least the larger portion of it; but as it may as well spoil by heating as by grasshopper digestion, they go ahead. Our saloon is inclosed. It 'makes's rather tain appear.

We had the extreme pleasure of attending a lecture by the Hon. Mr. Dodge, Prof. of Chicago, on the means of producing longevity. He thinks that if people would ex-ercise more, they would have better health and stronger constitutions than at present. His discourse consisted chiefly in drawing in his breats and expelling it by pounding on his chest. We think that his name is very suitable as he is an expert at dodging at all systems, and ideas was rather out of breath running after his horses, which ran away, smashing things generally.

On close questioning, he formally admitted that it was Judge Wakefield, of Troy, be was after. The greater part of last week was occupied with the tri al of W. W. Moore, City Marshal, for assaulting a person whom he went to arrest-the legal term of it, we do not know. Two days were wasted in getting a jury. Keith and Seaver were for the prosecution, and Webb for the defence. The proceedings between Keith and Webb were sharp and close, and they seemed to be pretty equally matched. But Webb had the most law on his side, and Moore was acquitted. There were no costs in the case-no not any!

The best pleased man we have seen in a long time was Bill Hedrick, whom we met on the street, the other day. He was rejoicing over the prospect that there would be but one Republican party in the County hereafter, and that it would again be as we had it in the famous old days from 1836 to 1860, when every Republican turned out, and voted the straight ticket, without a scratch or grumble. He has been about half mad for the last four but thinks he shall now pull off his coat and pitch in with hearty good will once more.

The greatest complaint we have heard, was on no of a lack of water. The trains were poorly supplied, and there was no water to be hell on the ground except Neme ha River water. Apples and peaches are suffering badly from them. They eem to have a spcial liking for the willow, Lembardy poplar, and cottonwood-the first two they have com stripped, and their excrements, like gunpowder or black tea, lie thickly all around. SCHOOL MEETING.-There was a good deal of interest from the fact that it was reported that a scheme was o foot to elect a Board pledged against employing Prof. Bar-rett as Principal of the schools, and that this party would have their women out in force. This set the Barrettarians to work, and they took a number of their women along, provide against emergencies. But the scheme, if conten plated, was abundoned, and the women took their depart ure. The regular business was then quietly transacted.

The old Board was re-elected, viz: Charles Rappelye, Di,

a tax of 5 mills was levied. We are sorry to hear this annual buggaboo against Prof. whether he desires the school or not. It is simply an er hibition of bigotry, because he was raised in the bel it takes a different recipe to get to Heaven from the on

VINECARBITTED

Dr. J. Walker's California Vinegar Bitters are a purely Vegotable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient re-covers his health. They are the great blood purifler and a life-giving principle, a perfect Ren-ovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gen-tle Purgative as well as a Tonic, relieving Con-gestion or Inflammation of the Liver and Vis-ceral Org ns, in Bilious Diseases. They are easy of administration, prompt in their re-sults, safe and reliable in all forms of diseases. If men will enjoy good health, let them
